

Programmable Cutting Machine SF-550

Safety Features:

- ◆ Safety guarts on rear table.
- ◆ Safety beam guards on front table.
- ◆ Two-hand operation electronically control.
- ◆ Blade return in automation.
- ◆ Disc brake for blade stop.
- ◆ Main safety lock with key.
- ◆ 24 Volt controls in low voltage.
- ◆ Cutting aid for paper aligning.
- ◆ Safety standarts and CE certifications approval.

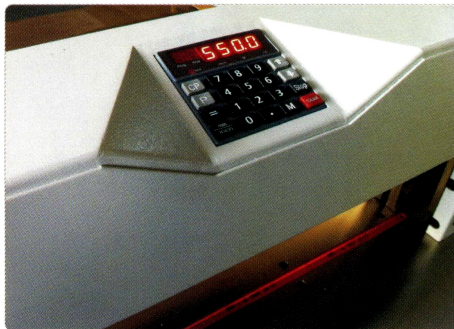

Technical Features:

- ◆ Electric-mechanical control of blade, clamp and backgauge.
 - ◆ Automatic clamping system, guided on both sides.
 - ◆ Optical cutting line.
 - ◆ Complete with stand and storage shelf.
 - ◆ Paper clamping time and pressure adjustable.
- ◆ Clamp made of powder metallurgy reduce greasing frequently.
 - ◆ Curl movement increased the cutting ability.

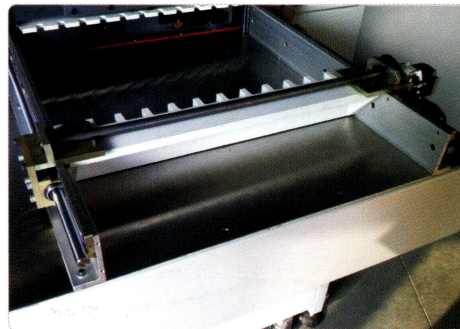

Backgaug control system:

- ◆ Digital measurement in cm or inch (display accurate to 3/10 mm or 3/100 inch)
- ◆ Memory key for repeat cuts
- ◆ 9 programs with 9 steps in each program
- ◆ " SET" function key for reference measurement
- ◆ Programmeble EJECT function-for pushing out the paper
- ◆ Programmeble keys for quick setting of frequently measurements
- ◆ Self-diagnosis system with error indication on display

Programmabel backgaueg control system

Dual-rail design for backgauge

Cutter pat raised easily design

Safety beam guards

Specifications:

Model	SF-550
Cutting width	550mm
Cutting height	80mm
Table height	930mm
Narrow cut	35mm
Power supply	220V/110V, 50Hz/60Hz
Blade drive	1100W
Clamp drive	370W
Dimensions	1025x1050x830mm
Weight	280Kg
Net weight	230Kg
